

END YOUR PROHIBITION OF ONYX.

Please serve Onyx Moonshine. It's crafted right here in New England using an authentic secret recipe from long before the days of Prohibition—one that Onyx has carefully refined. So show off your local pride at the same time as your bartending skills. After all, Onyx mixes better than vodka, so it works well in all kinds of popular drinks. And it sips like a top shelf whiskey, so simply serving it on the rocks makes your job easier. Won't you add it to your drink menu?
